

7:00 - 8:00 AM	GVF Poster set-up and discussion, breakfast and networking
8:00 - 10:00 AM	Abstract Presentations (8 min. talk, 2 min. Q&A)
10:00 - 10:30 AM	Committee Meetings
10:30 - 11:00 AM	Outcomes/Investigative Global Advancement (IGA) Meeting
11:00 - 11:30 AM	GVF Poster take-down
11:00 - 6:00 PM	SOCS attendance
7:00 - 9:00 PM	6 <sup>th</sup> Annual GVF Dinner Meeting (by invitation only)

**Abstract Session Schedule**

**Chaired by:** Drs. Harris, Pandya, and Hamzavi

7:55 - 8:00 AM	Welcome
8:00 - 8:10 AM	<b>Andrea Tovar-Garza, MD</b>   University of Texas, Southwestern Medical Center <i>A pilot study of suction blister grafting for patients with vitiligo using an automated epidermal harvesting system</i>
8:10 - 8:20 AM	<b>Samia Esmat, MD</b>   Cairo University <i>Incubator Free, Room Temperature Trypsinization: Another Step in the Way of "NCECS Made Easy"</i>
8:20 - 8:30 AM	<b>Maggi Ahmed, MD</b>   University of Massachusetts Medical School <i>Vitiligo of Patients Undergoing Melanocyte Keratinocytes Transplantation Surgery: Is It Truly Stable?</i>
8:30 - 8:40 AM	<b>Muhammed Razmi Thurkintavide, MD</b>   Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh <i>Long term repigmentation outcome of combined epidermal and follicular cell suspension in stable vitiligo – follow up study of an intra-patient, active controlled, randomized clinical trial</i>
8:40 - 8:50 AM	<b>John E. Harris, MD</b>   University of Massachusetts Medical School <i>Targeting IL-15 signaling in resident memory T cells with an anti-CD122 antibody durably reverses vitiligo</i>
8:50 - 9:00 AM	<b>Taylor L. Braunberger, MD</b> , Research Fellow   Henry Ford Hospital <i>Synergistic Effects of Long Wavelength Ultraviolet A1 and Visible Light on Pigmentation: Potential Phototherapy for Vitiligo</i>
9:00 - 9:10 AM	<b>Amanda Nahhas, DO</b>   Henry Ford Hospital <i>The impact of positive antinuclear antibody on narrowband-UVB phototherapy in patients with vitiligo: a retrospective chart review</i>
9:10 - 9:20 AM	<b>Victor Huang, MD</b>   Brigham and Women's Hospital <i>2% Topical Tofacitinib for the Treatment of Refractory Vitiligo</i>
9:20 - 9:30 AM	<b>Jung Min Bae, MD, PhD</b>   Catholic University of Korea <i>Lessons from healthcare big data analyses for vitiligo and phototherapy</i>
9:30 - 9:40 AM	<b>Anand Ganesan, MD</b>   University of California, Irvine <i>Visualizing Repigmentation in the Skin of Patients with Vitiligo</i>
9:40 - 9:50 AM	<b>Amit Pandya, MD</b>   University of Texas, Southwestern Medical Center Outcomes Committee Update
9:50 - 9:55 AM	<b>Drs. Luzio Paulo &amp; Patricia Paludo</b>   International Clinical Pearls
9:55 - 10:00 AM	Patient Testimonials Video
6 <sup>th</sup> Annual GVF Dinner Meeting (by invitation only)	
7:00 - 7:30 PM	GVF Update
7:30 - 9:00 PM	Networking

## POSTERS

**P01**

**Marwa Abdallah, MD**

Ain Shams University, Cairo, Egypt

*"Distribution Patterns of Vitiligo in Children, A Cross-Sectional Study"*

**P02**

**Nanette Silverberg, MD**

Mount Sinai Hospital

*"Figure of Eight Vitiligo: Factors Associated with Generalized Disease"*

**P03**

**Paulo Luzio, MD**

Clinica de Vitiligo

*"1mm Micropunch Surgery"*

**P04**

**Paulo Luzio, MD**

Clinica de Vitiligo

*"Dermoscopy for Vitiligo"*

**P05**

**Patricia Paludo, MD**

Clinica de Vitiligo

*"Intralesional triancinolone for the treatment of vitiligo in hands"*

**P06**

**Patricia Paludo, MD**

Clinica de Vitiligo

*"Combined treatment for facial vitiligo"*

**P07**

**Patricia Paludo, MD**

Clinica de Vitiligo

*"Why the response to tacrolimus is better in face than it is in another areas in vitiligo treatment"*

**P08**

**Alexandra Rzepecki, MS**

Univeristy of Michigan Medical School

*"Beyond traditional treatments: the importance of psychosocial therapy in vitiligo"*

**P09**

**Andrea Tovar Garza, MD**

University of Texas, Southwestern

*"Non-cultured epidermal suspension grafting using suction blisters as donor tissue for vitiligo and leukoderma"*
